

## **LPN TO ADN TRANSITION (Under Review)**

The LPN to And Transition is currently under review. Please contact Darlene Lang-Koonce for further information on the status of this program. The telephone and extension is 252-527-6223, ext. 343.

The ADN Transition program is designed for the current unrestricted Licensed Practical Nurse (LPN) to complete the ADN program.

Applicants must meet the algebra and chemistry requirements for Associate Degree Nursing. The chemistry requirement in excess of five years may be waived if BIO 168 and 169 or the equivalent have been completed. Applicants must have completed the following related courses with a "C" or better: PSY 150, BIO 168, and BIO 169.

A co-requisite of NUR 214 must be PSY 241 and ENG 111 if the course has not been previously taken. COM 231, ENG 112, BIO 275, AND HUM/FINE ARTS elective must be taken with respective NUR courses as noted in the catalog if not previously taken. In addition, a satisfactory score must be obtained on a math-pharmacology competency exam. The ADN faculty will administer this exam to the qualified applicants in late fall semester. Pharmacology outlines for independent review will be available from the Admissions Office or Health Sciences Division in the fall semester. For additional information, contact the Admissions Office at 252-527-6223, ext. 343, ext. 319, or ext. 331. Official transition into the ADN programs begins each summer.

### **SEPTEMBER-OCTOBER:**

Apply to the LPN to ADN Transition. (See Admissions Office Counselors)

### **NOVEMBER:**

Take math-pharmacology exam. (Call 252-527-6223, ext. 800 for testing date and appointment)

### **DECEMBER OR JANUARY:**

Provisional acceptance letters mailed to applicants.

### **FEBRUARY:**

NUR 214 begins. This is a 12-week course. (Upon successful completion of NUR 214, LPNs may enter the third semester of the ADN program.)
