

LCC Tutoring Lab

The college offers tutors for LCC students, in many subjects on campus. Computer tutorials are also available for independent study. Any LCC student can obtain a tutor simply by asking the instructor for a Referral Form. The form will contain information about the student, the subject and when the student has time available to be tutored. The instructor must sign the form before the student brings it to the

Tutoring Lab to be matched with a tutor.

Occasionally we are able to create a Supplemental Instruction session which is an academic assistance program that utilizes peer-assisted study sessions. SI sessions are regularly-scheduled, informal review sessions in which students compare notes, discuss readings, develop organizational tools, and predict test items. Students learn how to integrate course content and study skills while working together.

The Tutoring Lab is located in room 129 of the Science/LAP building (#27) on campus. It is a place where students can go to work alone or in groups in a quiet environment where computers are available (academic work only).

Fall and Spring semester hours:

Monday through Thursday 8:00 am to 7:00 pm
Friday 8:00 am to 3:00 pm

(The tutoring lab is closed on days that students do not have classes. (semester breaks, holidays, etc)

Students can apply to become a tutor by picking up and completing an Application of Employment from the Tutoring Coordinator. The application includes a reference form which needs to be filled out by one of the applicant's instructors in the subject; the student must have made a grade of B or higher in this subject.

Students are also able to access computers and printers at the Learning Resource Center. Printouts are \$.10/page. The LRC also has many other resources such as a scanner, copiers, newspapers, periodicals, VCRs for

Spanish videos, reference books (such as MLA handbooks, foreign dictionaries) and much more.

For more information about tutoring services, contact:
