The Machining Workforce Readiness Skills Certificate program includes classes on blueprint reading, shop safety, use of measuring tools, and introductory CNC training. It is ideal for individuals with no machining experience who are looking to expand their knowledge and opportunities. The program is open to both continuing education and curriculum students. Credits earned in this certificate can be applied to the AAS in Computer-Integrated Machining degree. Job placement services are available upon completion of the two-semester program!

**FALL**
Tuesdays & Thursdays, 5:00 – 9:00 p.m.

**SPRING**
Tuesdays & Thursdays, 5:00 – 9:00 p.m.

Classes are in a series, not concurrent. Only one seated class at a time. Cost is $305 and is open to the public and high school students at least 16 years of age. Tuition assistance is available for qualifying individuals.
