#### NOTES:

All health science students must have grades of "A", "B", "C", or "SA" on all applicable course work to progress each semester and graduate from the program.

\*LPN Transition students are given credit for these courses. A copy of their current unrestricted license to practice in North Carolina must be on file in Registrar's Office.

\*\*Generally, LPN's accepted into ADN Transition begin the 8-week NUR 211 course. Note: BIO 168 (4SHC) and BIO 169 (4SHC) must be completed prior to enrollment in the LPN to ADN Transition Program.

A45110RB indicates student is participating in the Regionally Increasing Baccalaureate Nurses (RIBN) Program.

*Please note that this is a possible semester-by-semester course of study. Any developmental courses such as DMA and DRE courses that are necessary for student placement could extend the time needed for completion. In such cases, graduation may be extended by one or more semester(s). Other delays might be experienced in regard to the timelines of various course offerings.*

\*\*\*Paramedic to ADN Transition is designed for the Paramedic to complete the ADN program. All general education courses listed as prerequisites to NUR 215. In addition, BIO 275 and PSY 241 are prerequisites to NUR 215. After provisional acceptance into the Paramedic to ADN Program, and upon successful completion of NUR 215 Paramedic/RN Bridge Concepts course, credit will be given for NUR 111, 112, 114, 117, and NUR 211 (25 SHC). A copy of the current unrestricted National and NC certifications to practice in NC must be on file in the Registrar's Office. After successful completion of NUR 215, the students in A45110PB will transition to A45110 major.
